Gallery Nucleus Presents

JOHN WATKISS SOLO EXHIBITION

August 2 - August 10, 2008

Opening Reception: August 2, 2008 (7 pm - 11 pm)

Alhambra, CA - We will be exhibiting rarely seen works by John Watkiss in this one-week only exhibition. Legendary in film and animation, John Watkiss has worked on Disney's *Tarzan* and *Treasure Planet*, Paramount's *Sky Captain* and the *World of Tomorrow* and with directors Francis Ford Coppola and Ridley Scott. Watkiss is well-known in the world of comics, having contributed to *Sandman*, *Savage Sword of Conan*, and *Deadman*.

Then there is Watkiss the fine artist. Extraordinary and accomplished, he creates works of great sensitivity, beauty and insight. These works have seldom been seen outside of his studio or private collections.

For one week only, view Watkiss's:

- New Paintings.
- Original, never-before-seen film concept work.
- Comic pages and covers.
- Exclusive release of Watkiss' Zodiac Girls print set.

Since October of 2004, Nucleus has strived to be a welcoming gathering place for the art loving community by offering quality art, art-related goods, and rarities. Focusing primarily on gallery exhibits, we have also had benefit auctions, product signings, music events, and artist lectures.

After three and a half years, we moved one block east to a much larger and more dynamic space. Still in the heart of quaint downtown Alhambra, we re-opened in March of 2008 with over 2000 square feet of open gallery space, 1000 square feet of shop/boutique, and over 3000 square feet of studio/production space.

Having exhibited both local artists and artists from abroad, and catering to an international customer base, we offer an extensive collection of original contemporary, illustrated, graphic, commercial, and narrative art. (All of which are carefully cataloged online in our website.)

Always open to the public, we welcome art collectors and the general public alike to visit us seven days a week.
